SDLC PHASES

Phase 1: Planning

Phase 2: Analysing

Phase 3: Designing

Phase 4: Developing

Phase 5: Testing

PROJECT VISIONS/AIMS

The Student Database System Have the Following Aims and Visions

- To support recruitment of students
- Support open interfaces on campus database
- effective time for good project
- Include of implementation and support services that will meet the university needs

FEATURES OF THE PROJECT
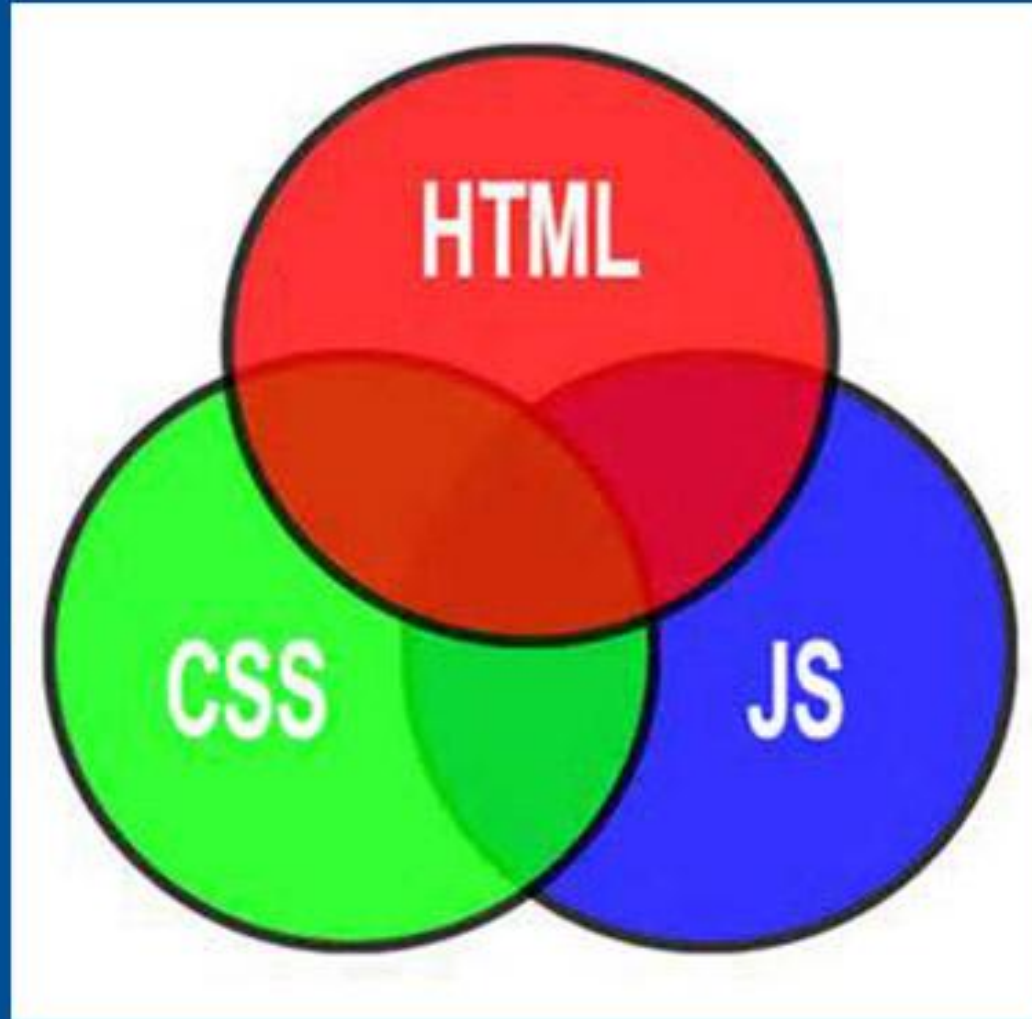

A sign in page for the admi

A student can be search by ID

A place to upload student picture

The ADM. can enter neccessary info of the students(DOB,NATIONALITY,ROOM NUMBER MAJOR etc)

For now,this is what we have plan on but more will be added later

Project Technology

WE ARE ALL HOPING FOR GOOD PROJECT

Thank You
